KOLLEL AVREICHIM OF TORONTO

נס"ד

August 26 '96

The obligation of the community to educate its children, includes physically, academically, and mentally challenged children equally. The obligation of **די מחסורו אשר יחסר לו** includes severely handicapped children even if they have a Halachic status of a **שוטה**.

Therefore, all of their needs must be provided for by the community, so they should not be deprived of any of their physical, emotional, or educational needs.

Jewish children can only have their needs met in a true Torah - based environment, and are entitled to the full support of the community to establish such an environment.

Rabbi Shlomo E, Miller
Rosh Hakollel

RSM/sy
